HUNGARY

Dear Reader,

Hungarians are well-known for being a passionate people. They are quick to act, and take a stand for their creativity, opinion and faith. Our unique outlook on life and our vigour are apparent in our every thought and they also permeate our culinary culture.

No wonder, then, that since ancient times we have loved distinctive, pronounced flavours, hot spices and substantial, traditional dishes. Our agriculture, our GMO-free status, which is guaranteed by the constitution, and the distinct uniqueness of our cuisine is world-famous.

With our expertise and several decades of experience, our mission at AMC is to raise awareness of, to encourage the enjoyment of and to propagate healthy, tasty, high-quality Hungarian products. These products are produced using eco-conscious processes that respect the ways of our ancestors. Knowledge continues to be passed from one generation to the next while also encouraging new and innovative technologies.

As a result of our unequalled geographical and natural endowments, our eminence in producing food products, and thanks to our high level of food safety compared to other EU countries we are able to offer food products with a high added value.

Come and visit our booth and explore the high-quality Hungarian products of our exhibitors. Taste the delightful flavors of our food and drink, choose the ones you like the most and take them back to share with your family and friends.

Stand number: 7.N23

AGROSPRINT deals with fruit and vegetable quick freezing. During our 35 years of operation, we have become one of Europe's leading manufacturers in the segment. We have a total production capacity of nearly 70,000 tons/year, primarily focused on the Retail/HoReCa sectors, where we can pack approx. 50,000 tons annually using our 10 most modern, automated packaging lines. In addition to meeting the demands of European retail chains and HoReCa partners, we continuously serve markets also in the Far East as well. Our main product is sweetcorn (cobs and kernels), for which AGROSPRINT has the largest production capacity in Europe. As well as our production of green peas, beans, sweet and sour cherries and various vegetable mixes is also significant. While most of our products are consumed as conventional, a wide range of organic products is also available. For more information, please visit our website: www.agrosprint.com

CIVITA

Since 2014

Stand number: 7.N19

Under the **Civita** brand, we offer high-quality, gluten-free products made from carefully selected corn. Our range of pasta includes spaghetti, penne, fusilli, and elbow macaroni – all delicious and wholesome options. In addition, we produce cold-pressed oils (both natural and flavored), as well as corn flour and grits, ideal for health-conscious kitchens.

Soon, we will also be launching an exciting innovation: fully biodegradable plates and cups made entirely from corn. These eco-friendly products offer a sustainable alternative to single-use plastics.

Online, real-time food catalogue and event management software

– Find your Hungarian export partner easily –

As part of the 2021 business development activity of Agricultural Marketing Centre, we intended to create a real-time, online interface with up-to-date data, which categorizes Hungarian food manufacturers and their products, thus making them transparent and easily accessible for those interested in importing. The system has been developed to become a modern, easy-to-use platform in line with today's IT trends, which provides professional help equally for the Hungarian Food Industry players as well as for foreign buyers.

ABOUT THE SOFTWARE

- Online, real-time database
- Contains the profiles of the exporting Hungarian food manufacturers
- Segmented product portfolio that can be filtered according to several aspects
- Two-stage registration
- Once registered, the software is worldwide available with English language user interface
- Direct internal mailing system

WHAT WE OFFER

- An online, business facilitator food industry software
- Free registration / usage
- Knowledge base for exporting, professional reports
- Simplified registration and matchmaking possibility for events organized by the Agricultural Marketing Centre
- Quick download of the country catalogue in pdf format
- Online, printable database of exportable Hungarian food manufacturing companies and their products
- Most relevant export and delivery data

Register your company and products at www.hungarianfoodexport.com
